

**Elders Climate Action** is a non-partisan movement of elders committed to making our voices heard on climate change. We are determined to change our nation's policies and practices while there is still time to avoid catastrophic changes in the earth's climate. We are committed to using our voices, our votes, and our collective power to push for policies and practices that will reduce greenhouse gases to a level consistent with life thriving on our planet. We hope you'll join us and send a message that elders are concerned about climate change and we are stepping up to ensure a livable planet for current and future generations.

## We're using our collective elder power to

- Protect Legislative and Policy Progress on Climate
- Reduce GHG and Other Air Pollution to Protect Climate and Our Health
- Phase out Fossil Fuels and Support a Clean Energy Transition
- Build Popular and Political Support for Climate Mitigation and Adaptation
- Grow and Strengthen ECA
- Work in collaboration with Intergenerational Allies
- Seek equity and justice in climate solutions

## ECA offers:

- Ways to get involved including important actions you can take on climate change
- Ongoing programming to help you learn more about climate issues and solutions
- Advocacy tools and training to support your efforts
- State and local chapters
- A community of climate concerned elders
- Meaningful ways to turn anxiety into action
